

# Byde Mill Solar Farm

You are invited to have your say

Ampyr Solar Europe ([www.ampyrsolareurope.com](http://www.ampyrsolareurope.com)) is developing a proposal for a solar farm on land at Townsend Farm, west of Poulshot. Our consultation runs until **23:59 on 19 October 2024** and we want to hear your feedback.

[www.bydemillsolarfarm.co.uk](http://www.bydemillsolarfarm.co.uk)

 **AMPYR** Solar Europe

We anticipate the Byde Mill Solar Farm would be able to supply enough energy to power approximately 5,000 homes each year. The clean energy generated would save on average approximately c.5000 tonnes of CO<sub>2</sub> per year, which adds up to over 180,000 tonnes of CO<sub>2</sub> over the next 40 years. Equivalent to saving over 200,000 acres of forest.

We are now consulting on our proposal. You can also read our consultation materials and provide feedback on our project website:

[www.bydemillsolarfarm.co.uk](http://www.bydemillsolarfarm.co.uk)

We will be holding a drop-in event at **Poulshot Village Hall, The Green, Devizes SN10 1RT, on 1 October 2024 from 3pm to 7pm (please check the project website for any updates)**. Please come along to find out more about the proposal and to ask the project team any questions.
